Supporting every child through THRIVE.

At St Peter's, we are proud to use the Thrive Approach to support the emotional wellbeing and development of all our children. Thrive helps us understand pupils' social and emotional needs and provides practical strategies to build confidence, resilience, self-esteem and positive relationships. Through nurture-based activities, strong relationships and targeted support where needed, we aim to ensure that every child feels safe, valued and ready to learn. By placing wellbeing at the heart of school life, we are helping our children to flourish both academically and personally.

Some pupils will need additional support and consent forms have been sent home for pupils needing group and individual support – assessments are carried out every half term to identify children who may benefit from further work, as well as whole class resources for teachers to use with everyone. Please speak to Mrs Barrass for more information.

Ofsted

As you are all aware we received our final Ofsted gradings last week – 5 out of 7 areas as expected standard. We are super proud of the hard work of the staff, team at the Trust and our children – the inspectors were impressed with what they saw over the two days and by the amount of improvements we have shown in just four terms!

We will be holding a celebration event on Tuesday 3rd November 1.30pm – all are welcome to join us in the hall and then in classrooms. Thank you.

Going on at LAAT?

Mr Ashton recently joined deputy headteachers from across the LAAT family of schools for a day of professional development and collaboration. The session provided an excellent opportunity to share best practice, explore current educational priorities and strengthen leadership across the trust. We are proud to see Mr Ashton contributing to and benefiting from this wider network, ensuring that the very best ideas and approaches continue to support the children and families of St Peter's.
